He taught most modern composers what they did not know before, or only knew intuitively and without method; but the composer ought to choose his own lines of taste, while never neglecting to use any information he can get from him. Wagner undoubtedly sucked his brains, but it would be absurd to say that his orchestration was in any way a reflection of the Frenchmans. As a text-book it has the small defects of its great qualities. Books, however, only give the same idea of orchestration that a Baedeker or a Murray. guide does of scenery. The maps and plans are useful, but give no clue to the contours and colours of a landscape, or to the architectural aspects of a city. Orchestration treatises, after they have explained the compasses of the various instruments, their mechanism, general character, capabilities and incapacities, have said all they can say. All the discussions upon the quality of their sound, individually and collectively, are of no possible...
