Penguin Books, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Los Angeles Times "Deeply reported, deeply frightening. a techno-thriller of the first order." The New Yorker "An excellent journalistic investigation of the efforts made since the first atomic bomb was exploded, outside Alamogordo, New Mexico, on July 16, 1945, to put some kind of harness on nuclear weaponry. By a miracle of information management, Schlosser has synthesized a huge archive of material, including government reports, scientific papers, and a substantial historical and polemical literature on nukes, and transformed it into a crisp narrative covering more than fifty years of scientific and political change. And he has interwoven that narrative with a hair-raising, minute-by-minute account of an accident at a Titan II missile silo in Arkansas, in 1980, which he renders in the manner of a techno-thriller. Command and Control is how nonfiction should be written." (Louis Menand) Time magazine "A devastatingly lucid and detailed new history of nuclear weapons in the U.S. . fascinating." (Lev Grossman) Financial Times "Command and Control ranks among the most nightmarish books written in recent years; and in that crowded company it bids fair to stand at the summit. It is the more horrific for being so incontrovertibly right and so damnably readable. Page after relentless page, it drives the vision of a world trembling on the edge of a fatal precipice deep into your reluctant mind. a work with the multilayered density of an ambitiously conceived novel. Schlosser has done what journalism does at its best when at full stretch: he has spent time years researching, interviewing, understanding and reflecting to give us a piece of work of the deepest import." The Guardian "The strength of Schlosser's writing derives from his ability...
