FIELD WORK AND SOCIAL RESEARCH (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Field Work and Social Research A scientific technique has been developed in the field work of the social sciences. Scattered through the reports of private investigating agencies and government commissions there is a vast amount of valuable information on methods of making scientific investigations of social conditions by first hand contact with the facts - that is, by field work. This book gathers together the well tested methods and techniques and attempts, to present them in an accurate and practical form., The treatment is not exhaustive, yet it is believed that all of the significant points are touched upon with sufficient detail to make the book useful as a manual to field workers. The theoretical principles underlying scientific method applied to the investigation of social conditions are outlined with sufficient thoroughness to make the book suggestive to students. The methodology of field work is developed in chronological order as the reader follows the successive chapters of the book. The material is, however, so arranged in chapters and under text headings and by index, that the reader will not have to wade through a mass of descriptive material to find some detail of technique in which he is especially interested.
