MAGNETIC RESONANCE SPECTROSCOPY AND IMAGING IN NEUROCHEMISTRY

Springer. Paperback. Book Condition: New. Paperback. 413 pages. Dimensions: 9.0in. x 6.0in. x 1.0in. The Advances in Neurochemistry series was initiated for a readership of neuroscientists with a background in biochemistry. True to this concept, the present volume brings together various applications of magnetic resonance technology to advance our knowledge of how the nervous system functions. Whether at the cellular, tissue slice, or intact organism level, magnetic resonance techniques are by their nature noninvasive, and thus provide a window through which...
