We are fifty or a hundred years behind the advanced countries. We must make good this distance in ten years. Either we do it, or they will crush us. The First Five-Year Plan, or 1st Five-Year Plan, of the Union of Soviet Socialist Republics (USSR) was a list of economic goals that was designed to strengthen the country s economy between 1928 and 1932. The main concerns of the First Five-Year Plan focused on making the nation militarily, industrially, and financially self-sufficient. The introduction of collectivization spurred industrialization in the nation as millions of people, of the 80 of the total population that was engaged in agriculture, moved from the country into the city. Despite many of the targets being unbelievably high (a 250 increase in overall industrial development, with a 330 percent expansion in heavy industry), remarkable results were achieved.
