Cisco Secure Firewall Services Module (FWSM) Best practices for securing networks with FWSM Ray Blair, CCIE(R) No. 7050 Arvind Durai, CCIE No. 7016 The Firewall Services Module (FWSM) is a high-performance stateful-inspection firewall that integrates into the Cisco(R) 6500 switch and 7600 router chassis. The FWSM monitors traffic flows using application inspection engines to provide a strong level of network security. The FWSM defines the security parameter and enables the enforcement of security policies through authentication, access control lists, and protocol inspection. The FWSM is a key component to anyone deploying network security. Cisco Secure Firewall Services Module (FWSM) covers all aspects of the FWSM. The book provides a detailed look at how the FWSM processes information, as well as installation advice, configuration details, recommendations for network integration, and reviews of operation and management. This book provides you with a single source that comprehensively answers how and why the FWSM functions as it does. This information enables you to successfully deploy the FWSM and gain the greatest functional benefit from your deployment. Practical examples throughout show you how other customers...
