In the future they hope to ex-tend the capabilities of these labs to allow application to all phases of flight. The labs lack a common local area network tying the computers, control center, and hardware together. This addition is planned for near term improvement. The labs basic configuration is an avionics hot bench with connections to several supporting computers. Emphasis is placed on real harnesses and hard-ware. The labs support equipment includes raised floors, large doors, heavy duty hoist and a workshop area for maintenance and construction. Also, a central data display center with large screen displays is combined with the labs for data analysis and presentation. 10 This item ships from La Vergne,TN. Paperback.
