Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: .on the other. However, with all the stress which has been laid on work therapy in its various forms in recent years, it is quite well worth while to attempt to lay hold of the energy which this tendency contains, to examine it, and try to discover if it has any usefulness and how it may be directed to best advantage. My own opinion is that all this industrial therapy has value, is very largely indirect, that nobody is cured because he is taught to decorate a vase, but that the individualizing of the patient, the centering of attention and interest upon his specific problem, the setting up of a wholesome type of transfer between patient and teacher, the starting of a flow of interest to outside realities, the socializing of his tendencies in useful occupations, are all factors of the utmost importance not only with...
