Brand New Book ***** Print on Demand *****.Excerpt from *Timely Topics for Teachers 1907* In the matter of testing the qualifications of the teachers in the public schools, there has been for many years a notable lack of progress. Even in the States which are deemed most advanced in their educational system there has been a disposition to cling to the old plan of periodical re-examinations of teachers, despite the needless drudgery involved in these repeated tests. Iowa has taken the lead in the adoption of a better plan. That the teacher has not ceased to grow, but has striven to keep abreast of the times in educational thought and in knowledge of the world's work, can be demonstrated in a better way than by going through the old routine of questions and answers relating to the branches taught. The ability to prepare a thesis, or essay, on a topic in pedagogy or in the line of current events, is an evidence of advancement in professional or general culture.
