

## RNA Turnover in Bacteria, Archaea and Organelles (Hardback)

Filesize: 8.87 MB

### ***Reviews***

*Without doubt, this is actually the greatest function by any article writer. It is among the most amazing publication i have got read. Its been printed in an exceedingly basic way in fact it is simply after i finished reading through this publication where in fact changed me, change the way i believe.  
(Arielle Ledner)*

## RNA TURNOVER IN BACTERIA, ARCHAEA AND ORGANELLES (HARDBACK)

Elsevier Science Publishing Co Inc, United States, 2008. Hardback. Book Condition: New. 231 x 157 mm. Language: English . Brand New Book. Specific complexes of protein and RNA carry out many essential biological functions, including RNA processing, RNA turnover, RNA folding, as well as the translation of genetic information from mRNA into protein sequences. Messenger RNA (mRNA) decay is now emerging as an important control point and a major contributor to gene expression. Continuing identification of the protein factors and cofactors, and mRNA instability elements, responsible for mRNA decay allow researchers to build a comprehensive picture of the highly orchestrated processes involved in mRNA decay and its regulation. This title covers the difference in processing of mRNA between eukaryotes, bacteria and archaea. Benefit: Processing of mRNA differs greatly between eukaryotes, bacteria and archaea and this affords researchers readily reproducible techniques to understand and study the molecular pathogenesis of disease. Expert researchers introduce the most advanced technologies and techniques to identify mRNA processing, transport, localization and turnover which are central to the process of gene expression. Benefit: Keeps MIE buyers and online subscribers up-to-date with the latest research. It also offers step by step lab instructions including necessary equipment and reagents. Benefit: Provides tried and tested techniques which eliminate searching through many different sources. Tested techniques are trustworthy and avoid pitfalls so the same mistakes are not made over and over.
