North Atlantic Books,U.S., United States, 2006. Paperback. Book Condition: New. 229 x 150 mm. Language: English . Brand New Book. According to David Jubb, who has done the breakthrough work in this realm, life extension and health optimization require protein and antioxidant synthesis. Colloids of life and lifecolloids (spores), he says, are the real primordial building blocks of life, not the body cells. These colloids comprise the body s flora, whose vitality is crucial in creating sustained good health and long life. Jubbs Cell Rejuvenation focuses on how to optimize this bio-terrain, giving readers solid information about the science and techniques for reclaiming that inner terrain in relationship to protein and antioxidant synthesis. In a world of health practitioners who talk only in terms of disease, Dr. Jubb s focus is on the forces that allow health to flourish. This work represents a nontoxic, natural approach that gently creates a symbiotic relationship among body functions that contributes to overall health. Chronic fatigue, digestive insufficiency, cancer, diabetes, and autoimmune challenge are all demystified in this important work.
