paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 282 Publisher: China Building Industry Press Pub. Date :2007-10-1. This book introduces the basic principles of energy content and some new progress. The book is 10 chapters: Chapter 1 is an overview of the energy principle; second - four and six - seven chapters followed by broad categories introduced the basic theory of energy principles. disciplines including structural mechanics. elasticity. thin plate theory and the theory; first five and eight - ten chapters introduce subjects progress. including the principle of energy transformation format. each with an example of self-adjoint operator with the energy functional formula. district energy principle and Hamilton's canonical equations and solution of energy principle. Book for the mechanical and structural engineering and technical personnel. teachers. high school graduate and undergraduate students to read. Contents: Preface Chapter I Overview of the energy principle of energy principle and classification of 1-1 1-2 elastic energy of the system characteristics of the real state of energy principle for example 1-3 1-4 correspondence between several of the mechanical energy principle and mathematics in the functional relationship between the variational principle of 1-5 the corresponding variational functional differential equations in the form of equivalent form and the relationship - is the problem 1-6 functional form of the variational equations equivalent form and the relationship - - 1-7 inverse problem solution of the energy solution with the traditional relationship between 1-8 dual energy functional variational principle and the approximate solution of the origins of the relationship 1-9 types of energy transformation between the principle of structural mechanics energy chapter principles of 2-1 may be internal forces and displacements 2-2 2-3 principle of virtual work principle of virtual displacement 2-4 2-5 the...
